

TENNIS

at Pretoria Country Club

2020 started on a very positive note until COVID-19 shut the country down. But, like all of us, we had to adapt to survive, which we did. Tennis was one of the safest sports to play due to the distances between student, coach and outside play. Tennis is a great sport to observe social distancing while exercising and enjoying this lovely weather. We follow all protocols and compliance regulations put forward by government and Tennis South Africa.

This is a great opportunity for adults or children to improve their tennis skills.

Even if you are new to the sport, take this opportunity to start the sport of a lifetime.

If this pandemic has taught us anything, it's that quality time is irreplaceable. Tennis is a great opportunity for a family to play a sport together and make memories that last a lifetime.

Please feel free to contact me for further information.
